contents of volume 2

number 1, january–february

editorial

1 A Note from the Publisher

guest editorial

2 "It is not your duty to complete the work, but neither are you free to refrain from it."
Eugene V. D. Perrin

4 **perspectives**

original articles

5 The Accuracy of Esophageal Pressure Measurements in Convalescent and Sick Intubated Infants
D. P. Heaf, H. Turner, J. Stocks, and P. Helms

9 The Functional Response of Infants with Persistent Wheezing to Nebulized Beclomethasone Dipropionate
C. Maayan, T. Itzhaki, E. Bar-Yishay, S. Gross, A. Tal, and S. Godfrey

15 Bronchial Sensitivity to Inhaled Histamine in Healthy, Nonatopic Children
Frank Riedel and Horst von der Hardt

19 The Delivery of Therapeutic Aerosols Through Endotracheal Tubes
Richard C. Ahrens, Rebecca A. Ries, William Popendorf, and James A. Wiese

27 Chronic Lung Disease in Children Referred to a Teaching Hospital
Gerald W. Fernald, Floyd W. Denny, Diane L. Fairclough, Ronald W. Helms, and Frank M. Volberg

35 Aerosol Delivery to the Rabbit Lung with an Infant Ventilator
M. Flavin, M. MacDonald, M. Dolovich, G. Coates, and H. O'Brodovich

40 Fetal Lung Fluid Response to Maternal Hyperosmolality
Michael G. Ross, Rosemary D. Leake, M. Gore Ervin, and Delbert A. Fisher

symposium on nutrition and infant lung function

44 Nutrition and Infant Lung Functions: Report of a National Heart, Lung and Blood Institute Symposium
Edited by Philip M. Farrell

clinical review

60 Traumatic Bronchial Injuries in Children
Sigmund H. Ein, Jacob Friedberg, Barry Shandling, Blair Fearon, and Robert M. Filler

case reports

65 Diagnostic Implications and Treatment of Massive Spontaneous Atelectasis in Childhood
Wolfgang Müller, Horst von der Hardt, and Christian H. L. Rieger

number 2, march–april

editorial

71 A Note from the Editor

72 The Use of Oxygen for Children in Their Homes
Edward M. Sewell, Douglas Holsclaw, Daniel Schidlow, Steven McGeady, Barbara Berger, and Susan Kolb

original articles

75 Oxygen and Resolution of Lung Injury
Donald C. Tyler, D. Janet Pavlin, E. S. Boatman, Michael Nessly, and Frederick W. Cheney

82 Cold Air Provocation of Airway Hyperreactivity in Patients with Cystic Fibrosis
Linda L. Darga, Lawrence A. Eason, Dozent Maximilian S. Zach, and George Polgar

89 Ventilatory Response to Increased Dead Spaces in the First Week of Life
G. M. Stokes, A. D. Milner, A. J. Wilson, D. B. Morgan, P. G. T. Carman, and M. R. Oliver

94 Cardiorespiratory Status in Long-term Survivors of Prematurity, With and Without Hyaline Membrane Disease
I. B. MacLusky, D. Stringer, J. Zarfen, J. Smallhorn, and H. Levison

103 Effect of Endotracheal Continuous Positive Airway Pressure on Sensitivity to Carbon Dioxide and on Respiratory Timing in Preterm Infants
Alfred N. Krauss, Ricki F. Goldstein, Veronica Alfero, William W. Frayer, and Peter A. M. Auld

therapeutic methods

108 Sterile Water for Tracheostomy Home Care: Homemade versus Commercial Preparations
Sheila Kun, Lori Blatzheim, Allen Lipsey, and David Warburton

case reports

110 Bronchial Carcinoid Tumor in a 12-Year-Old Child
H. A. van Steensel-Moll, R. de Groot, H. J. Neijens, J. C. den Hollander, and M. Meradji

114 Primary Central Alveolar Hypoventilation in a Child: Early Diagnosis During Acute Illness; Trials with Respiratory Stimuli; Studies Related to Endorphins
Immanuela R. Moss, Mary Cataletto, and Giora E. Winnik

119 **book reviews**

121 **selected abstracts**

126 **pediatric pulmonology news**

number 3, may–june

127 **perspectives**

original articles

128 Trapped Gas and Airflow Limitation in Children with Cystic Fibrosis and Asthma
Katharine J. Desmond, Allan L. Coates, James G. Martin, and Pierre H. Beaudry

135 In Vivo Response Times for a Heated Skin Surface CO_2 Electrode During Rest and Exercise
Bruce G. Nickerson, Christopher Patterson, Ray McCrea, and Frank Monaco

141 Diurnal Variation of Peak Expiratory Flow Rate in Asthmatic Children
Peter D. Sly, Marienne E. Hibbert, and Louis I. Landau

147 Intralobar Pulmonary Sequestration (A Nonentity?)
Pamela D. Holder and Claire Langston

154 Liposyn Infusion Increases Plasma Prostaglandin Concentrations
Carl E. Hunt, Lauren M. Pachman, Joseph R. Hageman, Michael A. Cobb, and Linda Klemka

159 Managment of Children Hospitalized for Laryngotracheobronchitis
Jeffrey S. Wagener, Louis I. Landau, Anthony Olinsky, and Peter D. Phelan

163 Alterations in Plasma Amino Acid Levels in Children with Asthma: A Preliminary Investigation
Laura S. Inselman, Farida Khan, and Hugh E. Evans

170 Airway Hyperreactivity and a History of Clinical Manifestations of Asthma in Childhood
John D. Mark, John T. McBride, John G. Brooks, Kenneth M. McConnochie, and William J. Hall

case reports

175 Pulmonary Follicular Lymphoid Hyperplasia in a Child with HTLV-III–Related Immunodeficiency
John Rogers, Claire Langston, and I. Celine Guerra

179 **book reviews**

181 **abstracts**

185 **pediatric pulmonology news**

number 4, july–august

187 **perspectives**

original articles

189 Determinants of the First Inspiratory Volume and Functional Residual Capacity at Birth
H. Vyas, D. Field, A. D. Milner, and I. E. Hopkin

194 Normocarbic Hyperventilation Fails to Induce Pulmonary Vasodilation
Jeffrey A. Lindenberg, Boyd W. Goetzman, Jay M. Milstein, and Stephen H. Bennett

198 Diaphragmatic Pressures in Piglets: Transvenous Versus Direct Phrenic Nerve Stimulation
J. F. Watchko, D. E. Mayock, T. A. Standaert, and D. E. Woodrum

202 Protective Value of BCG Vaccination in Children in Bangkok, Thailand
Burana Chavalittamrong, Sanay Chearskul, and Montri Tuchinda

206 Does Nifedipine Affect the Diurnal Variation of Asthma in Children?
Peter D. Sly, Anthony Olinsky, and Louis I. Landau

211 Magnetic Resonance Imaging of Inflammatory Lung Disorders: Preliminary Studies in Children
Mervyn D. Cohen, Howard Eigen, Peter H. Scott, Robert Tepper, David A. Cory, John A. Smith, and Richard L. Scales

218 Aminophylline Reduces Hypoxic Ventilatory Depression Without Increasing Catecholamines
R. Dean Bruce, Robert A. Darnall, and John S. Althaus

225 A Comparison of Proximal and Distal High-Frequency Jet Ventilation in an Experimental Animal Model
Kenneth P. Bandy, Steven M. Donn, Joanne J. Nicks, and Ronald A. Naglie

230 Aerosolized Metaproterenol Compared to Subcutaneous Epinephrine in the Emergency Treatment of Childhood Asthma
Richard M. Ruddy, Gerald Kolski, Nina Scarpa, and Richard Wilmott

therapeutic methods

237 The Potential Value of a 750-ml Spacer for the Administration of Inhaled Corticosteroids to Children
J. Reiser, M. H. Frame, and J. O. Warner

244 Bronchial Lavage in Patients with Cystic Fibrosis: A Critical Review of Current Knowledge
James M. Sherman

case reports

247 Congenital Tracheal Stenosis with Associated Cardiopulmonary Anomalies: Report of Two Cases with a Review of the Literature
Joseph R. Voland, Kurt Benirschke, and Brian Saunders

250 **correspondence**

number 5, september–october

259 **perspectives**

original articles

260 Breast Feeding and Maternal Smoking as Predictors of Wheezing in Children Age 6 to 10 Years
Kenneth M. McConnochie and Klaus J. Roghmann

269 Physiologic Effects of Terbutaline on Pulmonary Function of Infants with Bronchopulmonary Dysplasia
Richard Sosulski, Soraya Abbasi, Vinod K. Bhutani, and William W. Fox

274 Multiple Factors Limit Exercise Capacity in Cystic Fibrosis
Jacques E. Marcotte, Robert K. Grisdale, Henry Levison, Allan L. Coates, and Gerard J. Canny

282 Single-dose Pharmacokinetics of Aztreonam in Children with Cystic Fibrosis
Michael D. Reed, Stephen C. Aronoff, Robert C. Stern, Toyoko S. Yamashita, Carolyn M. Myers, Lawrence T. Friedhoff, and Jeffrey L. Blumer

287 Effect of a Beta-agonist Nebulization on Lung Function in Neonates with Increased Pulmonary Resistance
Maria Gomez-Del Rio, Tilo Gerhardt, Dorothy Hehre, Rosalyn Feller, and Eduardo Bancalari

292 Comparison of the Lung Sound Frequency Spectra of Infants and Adults
Jamshed F. Kanga and Steve S. Kraman

296 Cardiopulmonary Function of Cats with Respiratory Distress Induced by N-Nitroso N-Methylurethane
Peter Richardson, Carl L. Bose, Vanessa Dayton, and Jeffrey R. Carlstrom

case reports

303 Urokinase Therapy for a Catheter-related Right Atrial Thrombus and Pulmonary Embolism in a 2-month-old Infant
George Y. Zureikat, Gerard R. Martin, Norman H. Silverman, and Christopher J. L. Newth

therapeutic methods

307 Clinical Observations on Mechanical Ventilation for Respiratory Failure in Bronchiolitis
Lorry L. Frankel, Norman J. Lewiston, David W. Smith, and David K. Stevenson

312 **correspondence**

315 **book reviews**

316 **abstracts**

number 6, november–december

original articles

321 Total Respiratory Compliance and Functional Residual Capacity in Children
A. Greenough, J. Stocks, U. Nothen, and P. Helms

327 Effect of High-frequency Jet Ventilation on Preterm and Rabbit Tracheal Mechanics
Vinod K. Bhutani, Thomas H. Shaffer, Soraya Abbasi, A. R. Spitzer, and W. W. Fox

332 Compliance Measurement in Respiratory Distress Syndome: The Prediction of Outcome
Michael A. Graff, Robert P. Novo, Magaly Diaz, Cathy Smith, I. Mark Hiatt, and Thomas Hegyi

337 A Study in Spirometry in Children from Mexico City
Delia Namihara, Gerald L. Strope, Ronald W. Helms, Penny Pekow, Bonfiglio Munoz, Bojalil, and Federico Fernandez

344 Diurnal Variation in Bronchial Responsiveness in Asthmatic Children
Peter D. Sly, and Louis I. Landau

353 Modification of Nonspecific Bronchial Reactivity in Hypothyroid Children under Different Regimens of Substitutive Opotherapy
M. P. Villa, G. Cerimoniale, F. Bernardi, F. Macri, C. Alonge, S. Criscione, E. Cacciari, and R. Ronchetti

358 Forced Expirations Against a Variable Resistance: A New Chest Physiotherapy Method in Cystic Fibrosis
Beatrice Oberwaldner, Johannes C. Evans, and Maximilian S. Zach

368 Differences in Drug Susceptibility Between Isolates of *Pseudomas Cepacia* Recovered from Patients with Cystic Fibrosis and Other Sources and Its Relationship to Beta-lactamase Focusing Pattern
Stephen C. Aronoff and Pauline H. Labrozzi

373 A Comparison of Pneumogram Recordings in Infants in the Hospital and at Home
Thomas G. Keens, Sally L. Davison Ward, Eileen P. Gates, Lynnie D. Hart, Anna Basile, Lydia A. Tinajero, Albert M. Lau, and Caroline E. Chan

378 Vascular Ring: Clinical and Physiologic Assessment of Pulmonary Function Following Surgical Correction
Jean-Marie Bertrand, Claude Chartrand, André Lamarre, and Jean-Guy Lapierre

clinical review

384 Pulmonary Hemosiderosis
Jacov Levy and Robert W. Wilmott

392 **book reviews**

393 **abstracts**

399 **acknowledgments**

401 **pediatric pulmonology news**
